### Accelerate data integration

Integrate data silos with Azure Data Factory, a service built for all data integration needs and skill levels. Easily construct ETL and ELT processes code-free within the intuitive visual environment, or write your own code. Visually integrate data sources using more than 90+ natively built and maintenance-free connectors at no added cost. Focus on your data – the serverless integration service does the rest.

## 1 Linked Services – What to interact with and how?

```
SQLDBLinkedService

ConnectionString: Server=MyServer;Database=myDataBase
UserName: "MrPaulAndrew"
Password: *****
```

# Data Factory Components

1 Linked Services

2 Datasets – Where is my data? What format? What file path/table do I need?

[dbo].[SalesOrders]

/RAW/Orders/2018/01/01/SalesOrders.csv
